WRUW-FM, 91.1

Tonight, from 8 pm to 2 am WRUW-FM will broadcast "The Fourth
Tower of Inverness" in its entirety.

"The Fourth Tower," a radio play produced by Grunt Records -
a producers of the Jefferson Airplane among others - begins with
Jowis, the owner of the Castle of Inverness, asking her
nephew Jack Flanders to come to Inverness and help her clear up
the mysteries taking place in her castle.

As Jack surveys the problem, he hears the titles song "Angel
Song" coming from a seemingly non-existent fourth tower. In sear-
ching out the fourth tower for his aunt, he encounters many bizarre
events throughout the journey.

Many people live in the walls of Inverness. To the powers of the
famous Madonna Vampira, Jack is on the fringe of losing his
mind as he sees himself through previous incarnations, with the
aid of his own alpha waves. Among the other inhabitants of the
castle are Dr. Mazoola, a slightly insane chemist; Little Freda, a
Russian who has no eyes, and Eenie Meenie, the sister of Lady
Is.

Ultimately Jack finds the Fourth Tower, at a time which seems like
one of Richard Alpert's finer acid experiences. As he explores the
realms of the Fourth Tower, he finds his long lost uncle, Lord
Is, among the many others there.

This well produced play, in which everything ends happily ever af-
ter, was broadcast nightly over WRUW-FM for a period of over 13
years, and now for the first time ever, is being run as one six hour
marathon show, from 8 pm to 2 am, with practically no interruptions.
